STRUCTURED NOTES

CAPTURE • ORGANIZE • UNDERSTAND • APPLY

Name: Emmanuel Rivas
Course / Subject: Fundamentos de Programación
Speaker / Class:
Date & Time: 11/05/26

KEYWORDS & KEY CONCEPTS

Focus on the key concepts that generate value and understanding.

ACTIONS / NEXT STEPS

Turn knowledge into action. Small steps, big results.

NOTES

Title: Lenguaje de Marcado Extensible

Topic:

XML es un metalenguaje que permite definir lenguajes de marcas desarrollado por el World Wide Web Consortium (W3C) utilizado para almacenar datos en forma legible.

Proviene del lenguaje SGML y permite definir la gramática de lenguajes específicos (de la misma manera que HTML es a su vez un lenguaje definido por SGML) para estructurar documentos grandes.

QUESTIONS & REFLECTIONS

What questions do I have? | What is unclear or confusing? | What ideas connect? | How can I apply this? | What assumptions should I challenge?

SUMMARY

Write a brief summary of the main points.

KEY TAKEAWAY

Capture the most important insight.
