

STRUCTURED NOTES

CAPTURE • ORGANIZE • UNDERSTAND • APPLY

Name Emanuel Rivas
Course / Subject Fundamentos de Programación
Speaker / Class _____
Date & Time 10/5/26

KEYWORDS & KEY CONCEPTS

-
-
-
-
-
-
-
-

Focus on the key concepts that generate value and understanding.

ACTIONS / NEXT STEPS

- ☐
- ☐
- ☐
- ☐
- ☐

Turn knowledge into action.
Small steps, big results.

NOTES

Title: Conjuntos

Topic: Subconjuntos

Si todos los elementos de A también son elementos de B, se dice que A es subconjunto de B o que A está contenido en B, y esto se denota como:

$$A \subseteq B$$

Si A no es subconjunto de B se escribe:

$$A \not\subseteq B$$

Por otro lado, se dice que dos conjuntos A y B son iguales si tienen los mismos elementos.

$$A = B$$

QUESTIONS & REFLECTIONS

-
-
-
-
-

What questions do I have?

What is unclear or confusing?

What ideas connect?

How can I apply this?

What assumptions should I challenge?

SUMMARY

Write a brief summary of the main points.

-
-
-

KEY TAKEAWAY

Capture the most important insight.
