

STRUCTURED NOTES

CAPTURE • ORGANIZE • UNDERSTAND • APPLY

Name Emmanuel Rivas
Course / Subject Fundamentos de Programación
Speaker / Class _____
Date & Time 10/5/26

KEYWORDS & KEY CONCEPTS

-
-
-
-
-
-
-
-

 Focus on the key concepts that generate value and understanding.

ACTIONS / NEXT STEPS

- ☐
- ☐
- ☐
- ☐
- ☐

 Turn knowledge into action. Small steps, big results.

NOTES

Title: Conjuntos
Topic: Operaciones y leyes de conjuntos

Así como es posible llevar a cabo operaciones entre números, también se pueden realizar con conjuntos.

Por otro lado, las operaciones con conjuntos se pueden ilustrar por medio de un diagrama de Venn con el fin de observar más claramente la relación entre los conjuntos.

QUESTIONS & REFLECTIONS

-
-
-
-
-

 What questions do I have?

 What is unclear or confusing?

 What ideas connect?

 How can I apply this?

 What assumptions should I challenge?

SUMMARY

Write a brief summary of the main points.

-
-
-

KEY TAKEAWAY

Capture the most important insight.

-
-
-

KEYWORDS & KEY CONCEPTS

-
-
-
-
-
-
-
-

Focus on the key concepts that generate value and understanding.

ACTIONS / NEXT STEPS

- ☐
- ☐
- ☐
- ☐
- ☐

Turn knowledge into action.
Small steps, big results.

NOTES

Title: Operaciones y leyes de conjuntos

Topic: Unión ($A \cup B$)

La unión del conjunto A y el conjunto B es el conjunto que contiene a todos los elementos del conjunto A y del conjunto B.

QUESTIONS & REFLECTIONS

-
-
-
-
-

What questions do I have?

What is unclear or confusing?

What ideas connect?

How can I apply this?

What assumptions should I challenge?

SUMMARY

Write a brief summary of the main points.

-
-
-

KEY TAKEAWAY

Capture the most important insight.

ACTIONS / NEXT STEPS

- ☐
- ☐
- ☐
- ☐
- ☐

Turn knowledge into action.
Small steps, big results.

NOTES

Title: Operaciones y leyes de conjuntos
Topic: Intersección ($A \cap B$)

La intersección del conjunto A y el conjunto B es el conjunto que contiene todos los elementos que son comunes a los conjuntos A y B.

QUESTIONS & REFLECTIONS

-
-
-
-
-

What questions do I have?

What is unclear or confusing?

What ideas connect?

How can I apply this?

What assumptions should I challenge?

ACTIONS / NEXT STEPS

- ☐
- ☐
- ☐
- ☐
- ☐

Turn knowledge into action.
Small steps, big results.

NOTES

Title: Operaciones y leyes de conjuntos

Topic: Ley distributiva

Dados tres conjuntos arbitrarios A, B y C, se puede ver que se cumple la siguiente ley distributiva en la que intervienen la unión y la intersección de conjuntos:

$$A \cap (B \cup C) = (A \cap B) \cup (A \cap C)$$

QUESTIONS & REFLECTIONS

-
-
-
-
-

What questions do I have?

What is unclear or confusing?

What ideas connect?

How can I apply this?

What assumptions should I challenge?

SUMMARY

Write a brief summary of the main points.

ACTIONS / NEXT STEPS

- ☐
- ☐
- ☐
- ☐
- ☐

Turn knowledge into action.
Small steps, big results.

NOTES

Title: Operaciones y leyes de conjuntos

Topic: Complemento (A')

El complemento de un conjunto A , que se denota A' , es el conjunto que contiene a todos los elementos del conjunto universo que no pertenece al conjunto A .

QUESTIONS & REFLECTIONS

-
-
-
-
-

What questions do I have?

What is unclear or confusing?

What ideas connect?

How can I apply this?

What assumptions should I challenge?

SUMMARY

Write a brief summary of the main points.

ACTIONS / NEXT STEPS

- ☐
- ☐
- ☐
- ☐
- ☐

Turn knowledge into action.
Small steps, big results.

NOTES

Title: Operaciones y leyes de conjuntos

Topic: Ley de Morgan

El matemático inglés Augustus De Morgan demostró que:

1) La negación de la intersección de dos o más conjuntos es equivalente a la unión de los conjuntos negados separadamente.

2) La negación de la unión de dos o más conjuntos es igual a la intersección de los conjuntos negados por separado.

QUESTIONS & REFLECTIONS

-
-
-
-
-

What questions do I have?

What is unclear or confusing?
