

STRUCTURED NOTES

CAPTURE • ORGANIZE • UNDERSTAND • APPLY

Name Emmanuel Rivas
Course / Subject Fundamentos de Programación
Speaker / Class _____
Date & Time 10/6/26

KEYWORDS & KEY CONCEPTS

-
-
-
-
-
-
-
-

Focus on the key concepts that generate value and understanding.

ACTIONS / NEXT STEPS

- ☐
- ☐
- ☐
- ☐
- ☐

Turn knowledge into action.
Small steps, big results.

NOTES

Title: Conjuntos
Topic: Relación entre teoría de conjuntos, lógica matemática y álgebra booleana

La lógica matemática y el álgebra booleana son herramientas fundamentales de la computación que se apoyan en las leyes de la teoría de conjuntos para explicar teoremas matemáticos o bien para simplificar expresiones booleanas.

QUESTIONS & REFLECTIONS

-
-
-
-
-

What questions do I have?

What is unclear or confusing?

What ideas connect?

How can I apply this?

What assumptions should I challenge?

SUMMARY

Write a brief summary of the main points.

-
-
-

KEY TAKEAWAY

Capture the most important insight.

-
-
-
